

SIMBROSS IDEAL TECH LTD

COMPANY PROFILE

Our Firm

OUR FIRM

Simbross Energy was founded in 2012 and registered as a building engineering services Company and Allied Matters Decree 1990 of Nigeria.

Simbross Energy is a leading manufacturer of innovative and high-quality power inverters with a head office in Lagos. As a global player and regional leader, we specialize in designing, developing, and producing cutting-edge inverters that efficiently convert direct current (DC) power to alternating current (AC) power.

We provide high-quality Solar and Power Electronic (UPS, Inverters, rectifiers) solutions to a wide range of sectors, including Privates, Governments, Schools, the Banking industry, healthcare, and hotels. Real estate and Oil & Gas Sector.

Our inverters are utilized in various applications, including residential, commercial, industrial, and renewable energy sectors. With a commitment to excellence and sustainability, we aim to revolutionize the power conversion industry and empower our customers with reliable, clean, and efficient energy solutions.

Our Vision & Mission

OUR VISION

To be a global leader in providing advanced and eco-friendly power inverters, driving the transition towards sustainable energy solutions.

OUR MISSION

Our mission is to design and manufacture state-of-the-art power inverters that deliver superior performance, reliability, and energy efficiency at the most affordable price to our customers. By harnessing the latest technologies and employing a customer-centric approach, we strive to exceed the expectations of our clients while contributing to a greener and more sustainable future.

Our Core Values

INNOVATION:

We foster a culture of continuous innovation, driving us to develop groundbreaking inverter solutions that address evolving customer needs and industry trends.

QUALITY:

We are committed to delivering products of the highest quality standards. Through rigorous testing and adherence to stringent quality control measures, we ensure that our inverters surpass industry benchmarks.

SUSTAINABILITY:

We are dedicated to minimizing our environmental impact and promoting sustainable practices. By producing energy-efficient inverters and embracing eco-friendly manufacturing processes, we strive to create a greener future.

CUSTOMER FOCUS:

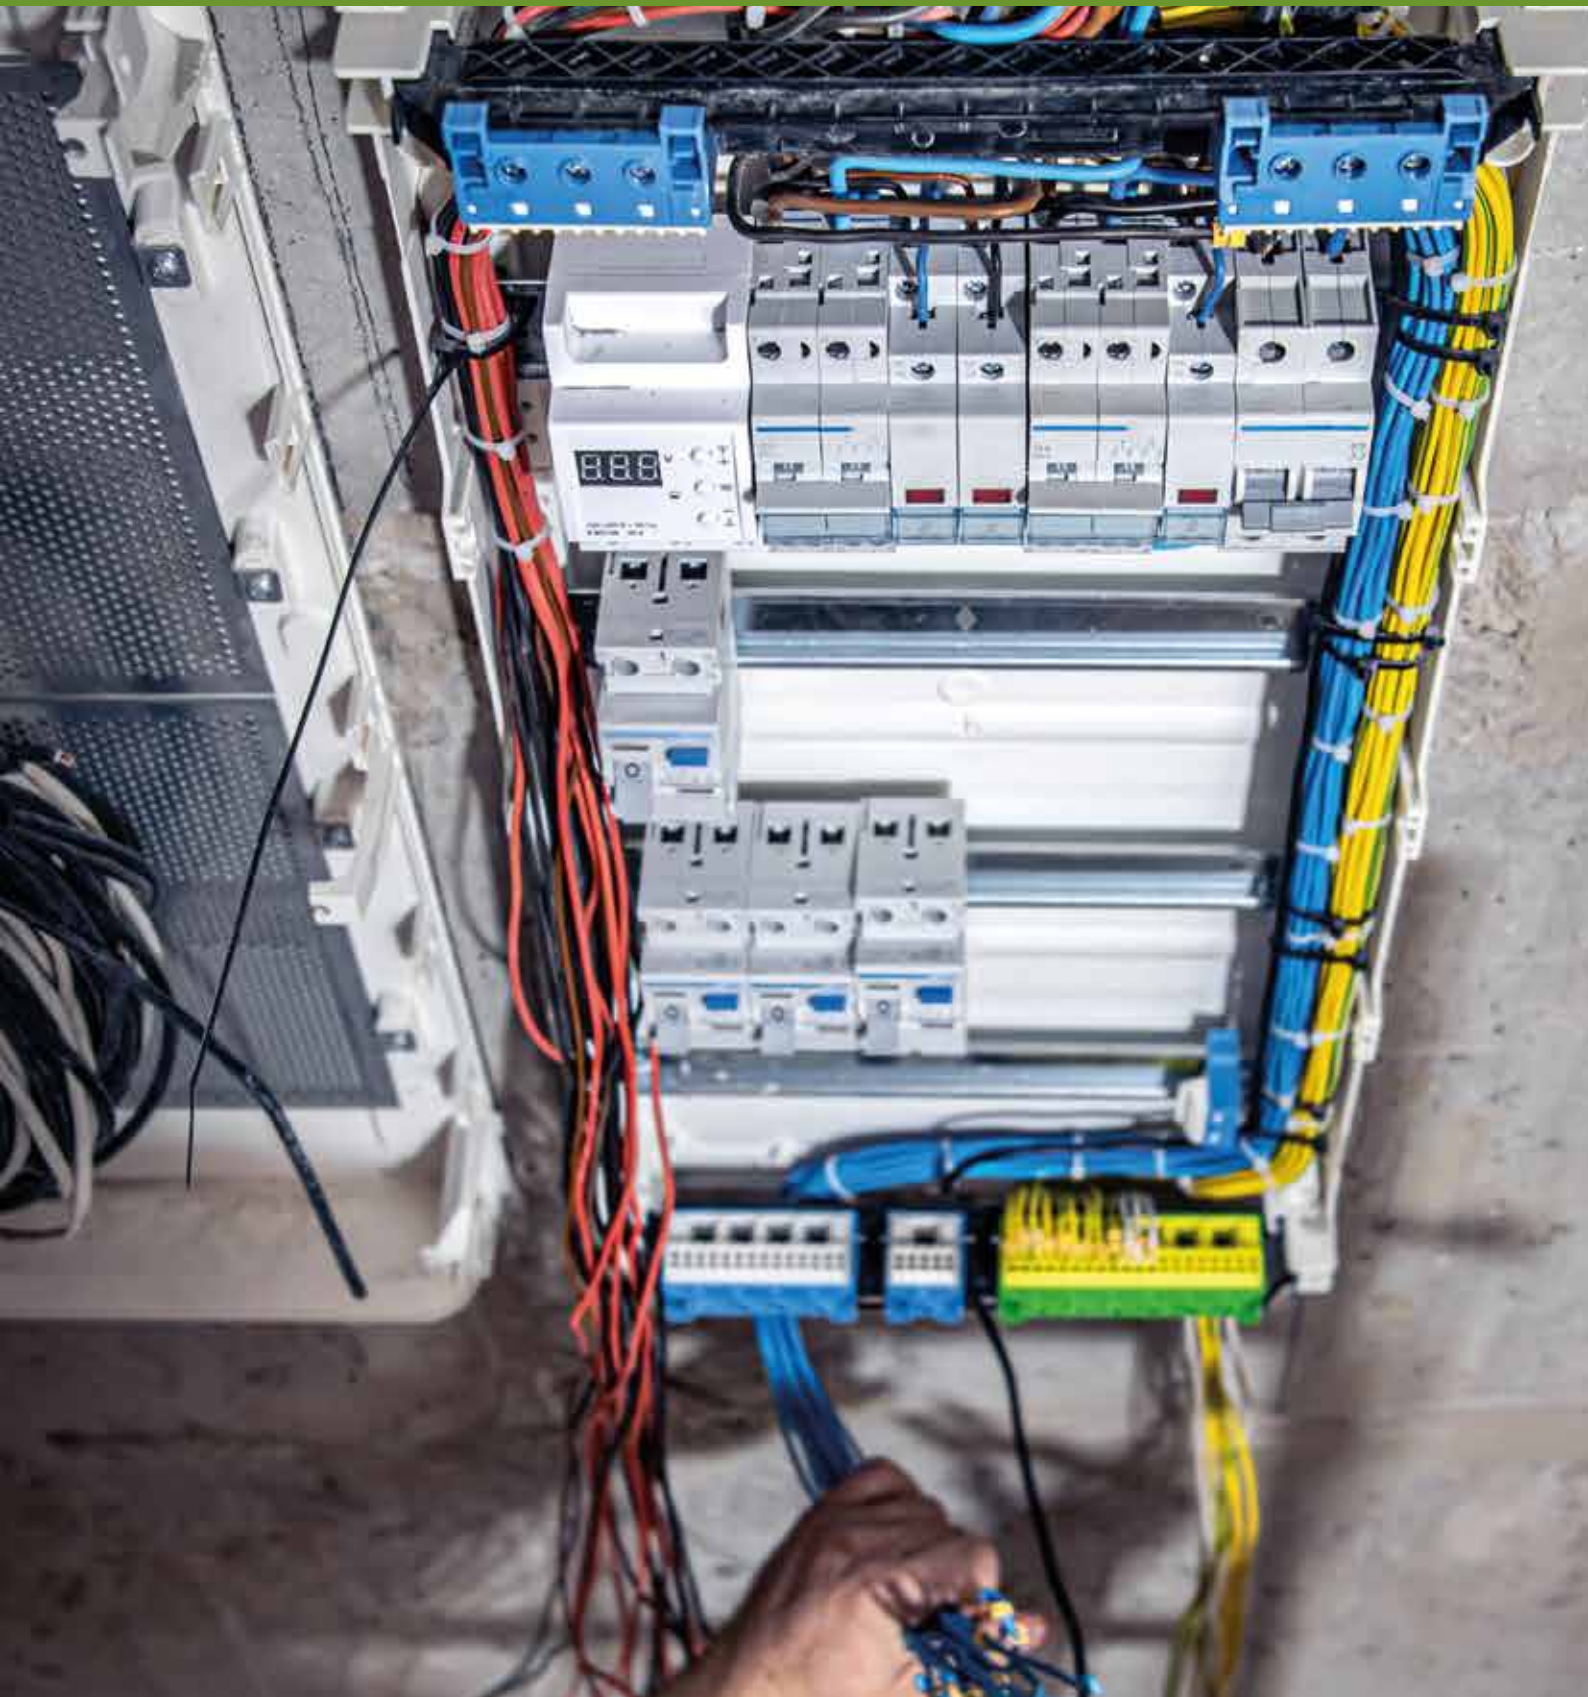

Our customers are at the heart of everything we do. We listen attentively to their requirements and tailor our products and services to meet their specific needs, providing reliable and personalized solutions.

INTEGRITY:

We conduct our business with the utmost integrity, maintaining transparency, honesty, and ethical practices in all our interactions with customers, suppliers, employees, and stakeholders.

Our services

INSPECTION & LOAD ESTIMATION

Our technical team will work with you to determine what kind of inverter you need, depending on your load, usage conditions, priority appliances, and budget. If required, we can arrange for a site inspection and load estimation, which will help you to better determine the kind of backup solution you need.

DELIVERY & INSTALLATION

We recommend that you always use a Simbross Service-approved installer for your installation. Our installers will help you understand how the inverter works, and under what conditions it should operate. There are certain guidelines such as which appliances should not be used with an inverter system, as well as certain tips to ensure that your batteries last longer. Your installer will help you understand these so that you can get the most out of your purchase. We also provide delivery services if required.

PREMIUM SERVICE & SUPPORT

Our technical team will work with you to determine what kind of inverter you need, depending on your load, usage conditions, priority appliances, and budget. If required, we can arrange for a site inspection and load estimation, which will help you to better determine the kind of backup solution you need.

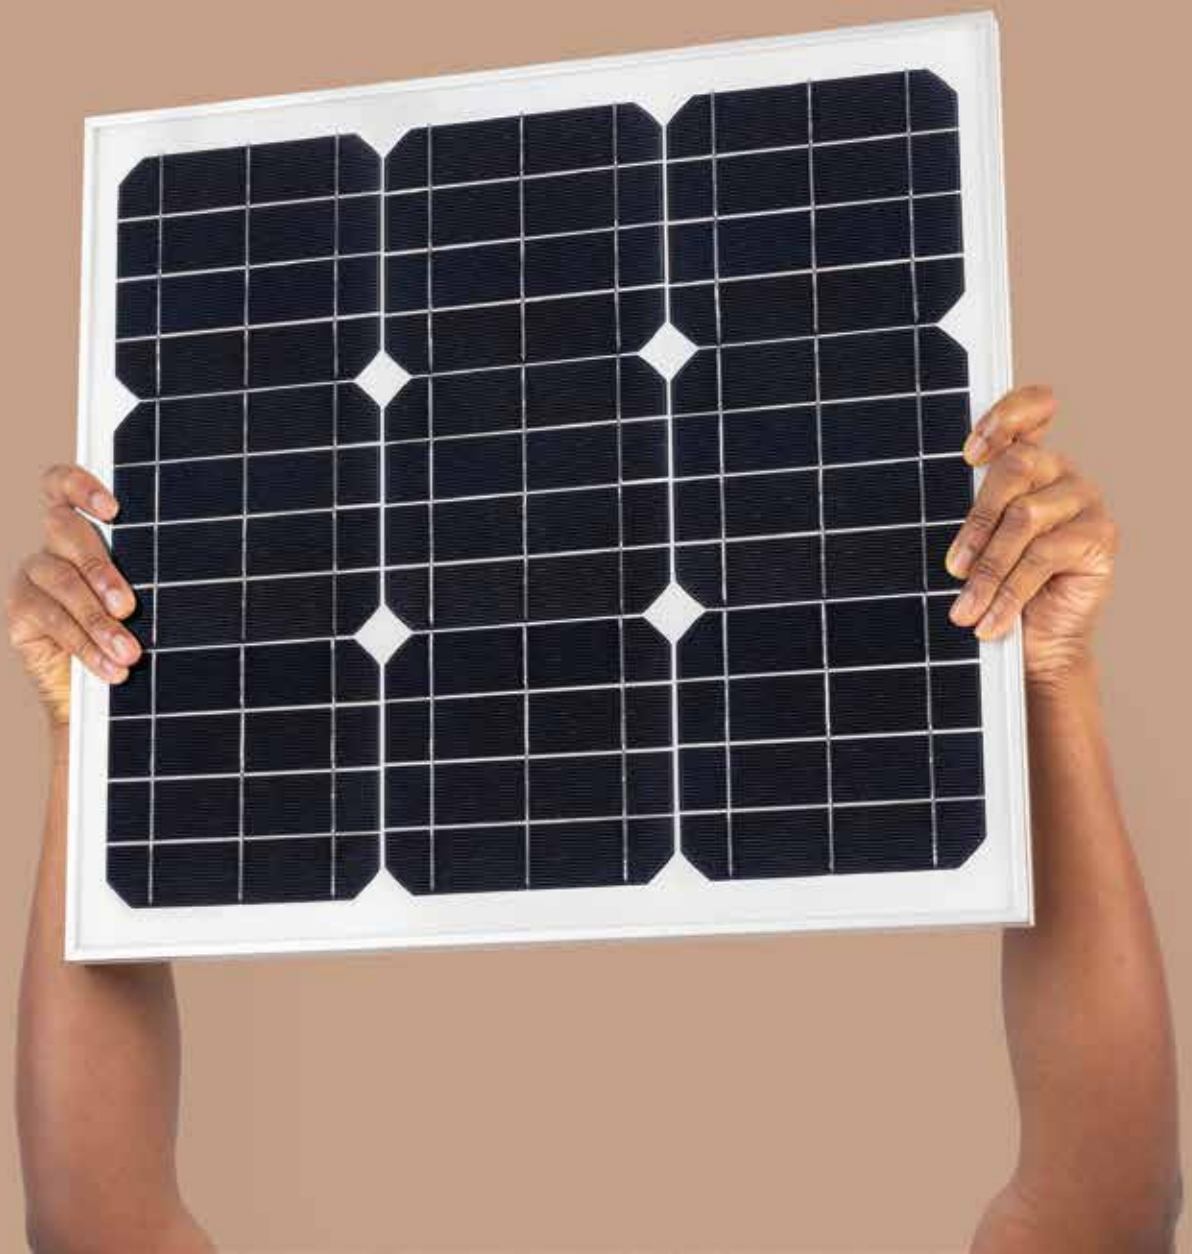

AVR, INDUSTRIAL UPS AND CCTV SALES AND INSTALLATION

Our comprehensive solution for AVR, Industrial UPS, and CCTV sales and installation is tailored to meet the unique needs of your business. By partnering with us, you gain access to cutting-edge technology, expert installation services, and ongoing support, ensuring the safety of your critical equipment and the security of your premises.

Product Portfolio

We offer a comprehensive range of inverters designed to cater to diverse applications and power requirements. Our product portfolio includes:

Residential Inverters

Our technical team will work with you to determine what kind of inverter you need, depending on your load, usage conditions, priority appliances, and budget. If required, we can arrange for a site inspection and load estimation, which will help you to better determine the kind of backup solution you need.

Commercial Inverters:

Robust and high-capacity inverters designed for commercial buildings and large-scale solar installations, enabling efficient power conversion and grid connectivity.

Industrial Inverters:

Heavy-duty inverters engineered to meet the demanding power needs of industrial operations, providing reliable and stable AC power conversion for machinery and equipment.

Grid-Tie Inverters:

Advanced inverters that connect renewable energy sources, such as solar or wind power, directly to the electrical grid, facilitating the efficient utilization of clean energy.

Off-Grid Inverters

Versatile inverters designed for off-grid applications, offering reliable power conversion and storage solutions in remote areas or during emergencies.
